RE: Fieldwork Experiences – MALT 604/EDUC 504/EDUG 404: Single Subject Literacy Methods I: Literacies for Diverse Learners

The University of Redlands, School of Education, has thoughtfully planned a developmental sequence of supervised teaching and learning experiences balancing the theories of education with effective practices in schools and communities.

To balance the theories of education with the practices of teaching, it is essential that our teacher credential students experience the complexity of teaching and learning in real classrooms and community settings.

To achieve this goal our program has aligned fieldwork experience hours with specific learning goals and course assignments.

- MALT 601: Foundations of Learning
- MALT 602: Single-Subject Methods I: Critical Pedagogy and Instructional Design
- MALT 604: Single-Subject Literacy Methods I: Literacies for Diverse Learners
- MALT 606: Single-Subject Methods II: Content Area Teaching
- MALT 608: Single-Subject Literacy Methods II: Content Area Literacy
- MALT 611: Foundations of Literacies

_____ is a teacher credential student currently enrolled in _____.
(Credential Student Name) (Course Number)

The instructor of the course is _____ and can be reached at _____.
(Instructor Name) (Instructor Email)

Our teacher credential student would like to have the opportunity to engage in 5 hours of fieldwork in a classroom or community setting to experience one or more of the following activities for the course checked above.

- Micro-teaching in a classroom, an after-school program, or a resource center.
- Case-study (see syllabus for details).
- Community-Inquiry Project (This could be a version of the case-study where students pose inquiry into a community and its assets).
- Observations in a K-12 public school setting.

Thank you for your time and commitment to our teacher credential students and fieldwork program as our students prepare to enter the field of teaching.
