

SCHOOL OF BUSINESS STUDY ABROAD

DEVELOP A GLOBAL PERSPECTIVE WITH AN INTERNATIONAL ADVENTURE

The School of Business offers students, alumni, and guests short-term study abroad courses tailored to meet students' professional and academic interests, as well as balance with their busy schedules. The mission of our international programs is to promote an awareness of business administration through a global lens. Inspired by the unique learning that comes through cross-cultural study, our programs enable students to experience international business firsthand in some of the most remarkable regions in the world.

Through a combination of academic presentations and corporate visits, you will learn about the challenges of global

business from both renowned scholars and executives who run international organizations. By choosing to participate in one of our international programs, you are assured an experience that will be intellectually stimulating and culturally rewarding.

In 2020, in addition to longtime favorite UK & Paris and last year's exciting new Adriatic Adventure, the School of Business introduces two new programs: one visiting Berlin, Germany and Athens, Greece, and another exploring business and culture in Panama. See reverse for a summary of all our 2020 study abroad programs.
